

Labor Saving "Track" Lavatory Carriers

TCA-411

TCA-411-D

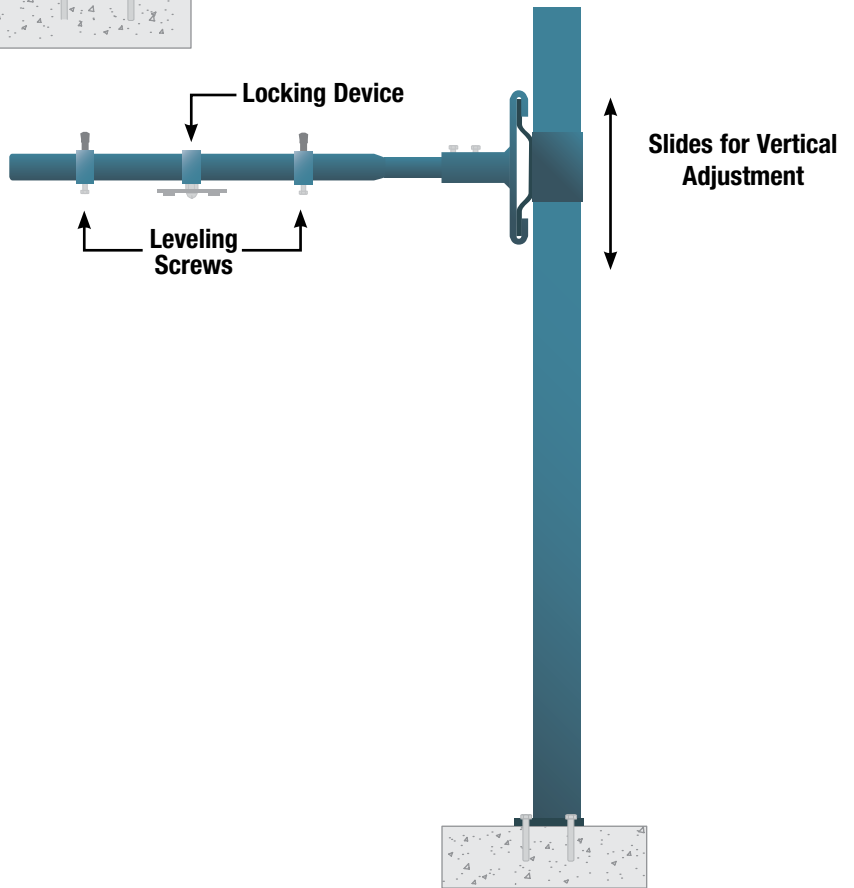

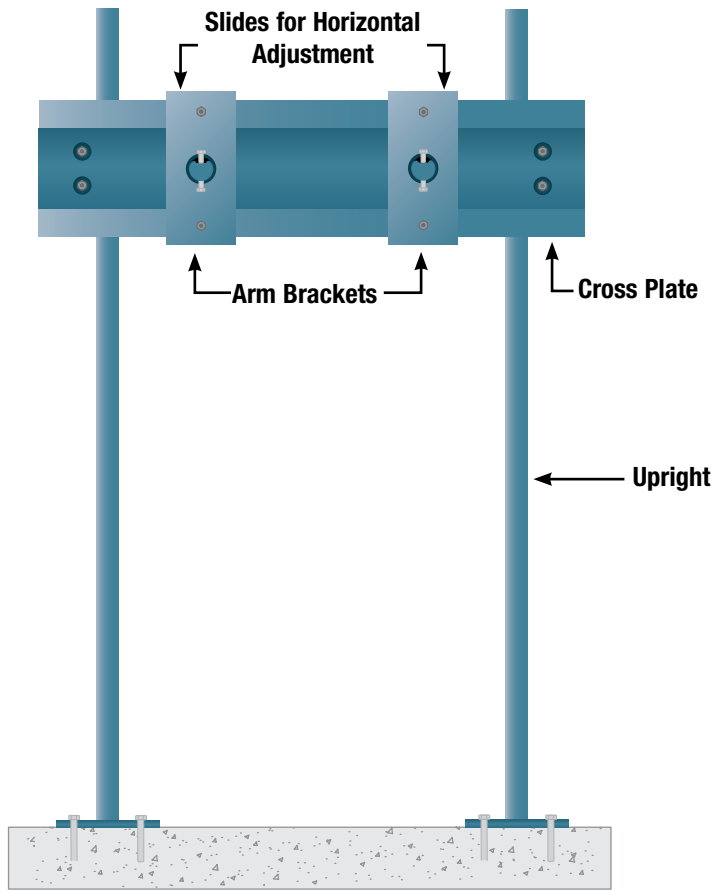

Same list price as
traditional lavatory carriers!

Features

- Can be lagged to floor without setting horizontal arm spacing. Arm Brackets slide along Cross Plate, allowing arms to be horizontally adjusted, and/or offset from center.
- Horizontal and vertical adjustments are completely independent.
- Cross Plate attaches to Uprights with Compression Brackets - no U-bolts!
- Uprights are offset on the foot and reverse against front or back of the wall cavity.
- Arm Brackets supplied standard with 10" nipples for installation behind a block wall.

Benefits

- Easily installed by one person.
- Can save as much as 30 minutes installation time per carrier.
- Less hardware and fewer parts means less missing hardware and fewer missing parts.
- Models available for standard and 27"x 20" concealed arm installation
- Patent Pending
