

Certificate of Approval

Foundation for Cross-Connection Control and Hydraulic Research

University of Southern California · KAP-200 University Park MC-2531 · Los Angeles, California 90089-2531

This is to certify that the

Ames 8-inch Model Maxim 400
(horizontal (H) orientation)
Reduced Pressure Principle
Backflow Prevention Assembly

manufactured by

Ames Fire & Waterworks – A division of Watts Industries
1427 N. Market Blvd.; Suite #9
Sacramento, CA 95834

has satisfactorily met all design and materials specifications as well as all of the Laboratory and Field Evaluation requirements set forth in the 9th Edition of the Manual of Cross-Connection Control.

This certificate is hereby granted for a period of three (3) years from this date. And, this certificate may be renewed subject to the review of records and/or additional evaluation requirements at the discretion of the Foundation for additional three-year periods. Certificates of Approval are not recalled for the purpose of updating the effective date. This revision of date is only published by the Foundation via the current List of Approved Backflow Prevention Assemblies.

For the Foundation,

Henry W. Chang
Mechanical Engineer
Program Manager

Paul H. Schwartz, P.E.
Chief Engineer

Approved on the 22nd of July 2009
