

Discover the New Frontier in Scale Prevention

OneFlow[®]

The Intelligent Scale Solution

Building owners, property managers and facility engineers have fought the battle against scale and its destructive byproducts for too long. Now there is a better solution that is environmentally friendly and virtually maintenance free. OneFlow prevents scale by transforming dissolved hardness minerals into harmless, inactive microscopic crystal particles. These particles make their way through plumbing systems without latching on to pipes, fixtures, valves or heating elements. Scientifically tested and certified for performance, OneFlow provides scale control results backed by years of successful field applications. Make the intelligent choice in scale prevention, OneFlow from Watts.
